### Reading Apps for Kids

**Tikatok StorySpark.** Kids write and illustrate their own books, using clip art or their own photos or digital drawings for backgrounds. When it's ready, books are "published" under a chosen pen name and posted online at Tikatok.com. *iPad, iPhone, iPod Touch, Android; app is free, books are \$3 each.*

**Bookster.** Young readers can find new favorite stories narrated by kids their age. They will also learn new vocabulary words and can record themselves reading the books when they've finished! *iPad, iPhone, iPod Touch, Android; free with first e-book.*

**Tales2Go.** Streaming, on-demand, unlimited access to more than 1,000 stories. Scroll through and sort by reader age, genre, and more. Bookmark and build a favorites list for easy return visits! *iPad, iPhone, iPod Touch; \$10 per month.*

**A Story Before Bed.** More than 300 stories in this app's library for an interactive read-along experience with your child. Record video of storytime so that your little one can watch it again in the morning, while paging through and following along! *iPad, iPhone, iPod Touch; \$10 per month.*

**MeeGenius.** Highlight words for review and use the MeeGenius audio playback to keep your little bookworms engaged. Give the personalization element a try, where a child can substitute his or her own name for that of a favorite character in the book! *iPad, iPhone, Android, Google TV; free with book selection. (recommended from Scholastic.com)*

**Niimípuum titwáatit.** Read traditional Nimiipuu stories along with an elder at <https://www.nimipuutimt.org/niimiacuteipuum-titwaacutait---the-peoples-stories.html>
